

Are We Willing to grow?

Last week Elder Tess showed us how we have to stop thinking like a child but mature and start becoming men and women in our prophetic understanding.

She used the following Bible verse to illustrate her point from 1 Corinthians 13

13:9 For we know in part, and we prophesy in part.

13:10 But when that which is perfect is come, then that which is in part shall be done away.

13:11 When I was a child, **I spake as a child, I understood as a child, I thought as a child: but when I became a man, I put away childish things.**

Before going into examples, we have to understand why it is important to grow. All has to do with education. We are meant to learn eternally, therefore, in each period of our life and in every subject, we are going to deepen our understanding. We are in danger to stay in fixed position which would be fatal for our eternal destiny.

Elder Tess, gave us the example of Adam.

Adam and Eve were created in a certain way and with a certain mind. They were created with a physical body; they received a mind which will allow them to have an understanding of the character of God.

The Lord made man upright in the beginning. He was created with a perfectly balanced mind, the size and strength of all its organs being perfectly developed. Adam was a perfect type of man. Every quality of mind was well proportioned, each having a distinctive office, and yet all dependent one upon another for the full and proper use of any one of them. { 3T 72.1}

They were also created to receive continual increase of knowledge on God, on nature, the animals, etc. For example, It was not natural for Adam to keep a garden. He had to receive knowledge and training to perform his duties properly. We are told:

Quote : the Advocate Aug 1, 1990 : *He who taught Adam and Eve in Eden how to tend the garden, would instruct men today. Special Testimonies On Education, 84-104. { LS 355.3}*

So, he wasn't created with a skill set but like a child that needed learning. So, God taught them how to run a garden or how to take care of themselves. God put before him different experiences. He had to name the animals and in doing so, he proved he had the mind of God. He also realized he was alone and needed a counterpart as much as the animals had. This realization was an increase of knowledge because it was not something that was embedded in him naturally.

And one of the great privileges they had was to learn directly from God.

Adam and Eve received knowledge through direct communion with God, and they learned of Him through His works. All created things, in their original perfection, were an expression of the thought of God. To Adam and Eve nature was teeming with divine wisdom...{ CTr 19.2}

The constant increase of knowledge they were supposed to receive was about how to deal with the external world, and to know more about themselves and about God. They were to learn and experience the goodness of God in all the areas of their lives. There was nothing bad in the garden of Eden. All was perfect. They had the knowledge at a certain extent that evil existed because the tree of knowledge of good and evil was in the midst of the garden. But it was not the intention of God for them to taste or experience evil and grow into the knowledge of evil things.

But sin arrives and direct communication with God stopped although it was never meant to.

*...But by transgression the human family was cut off from learning of God through direct communion and, to a great degree, through His works.... Upon every page of the great volume of His created works may still be traced His handwriting. Nature still speaks of her Creator. Yet these revelations **are partial and imperfect**. And in our fallen state, with weakened powers and restricted vision, we are incapable of interpreting aright. We need the fuller revelation of Himself that God has given in His written word.—Education, 16, 17. { CTr 19.2}*

Instead of approximately 1 year with God (Genesis 5:3: Adam was 130 years when Seth was born), they would have continued to acquire wisdom up to today and for eternity. But now, it is not good things they are learning about. They are experiencing evil. And the more you nourish a tendency, the more difficult it is to remove it.

This example shows us how we are constantly in an increase of knowledge. Some may look less significant than others, but we are constantly learning. We are learning from the past, to understand our present condition and future condition. So, we should never think that we have arrived. We must constantly use our reasoning brain.

But what is the problem? Most of the time we don't want to move forward. We are "lazy" as E. Parminder would say to search for hidden treasure. We would look at a quote, for example, and say, that's it that's all. Or synecdoche: "All you see is all there is"

The Baptist church says, you have to be baptised by immersion. That's it that's all. There is no growth in their thinking after reaching that conclusion. Same with the other churches, including Adventism. When God tries to give them an increase of light, they stopped it. In Adventism, we would say, we are comfortable with the Sunday Law and the pope, we don't need more light.

The challenge with maturity or becoming adult is that we have to constantly learn and unlearn things. But really, we are to be willing to continue to learn and for that we need to be more educated. So what do we need? We need a message. A living message. Ellen White says that what the people need is present truth. And to have a living message means you need a living messenger who will build his or her message upon the past ones to confront the people on their established ideas. History shows us that it is not that easy. The Pharisees and Sadducees didn't accept Christ and his teachings. In the 19th century and up to today, many do not accept Ellen

White. Today again, Many reject Elder Tess and Elder Parminder as appointed messengers as well as their message. But that is the only way we can understand the history we live in.

For us, it is a big deal to understand methodology and parable teachings. And the more we advance, the more it grows or is refined. And that is the only way we can start thinking as adults. This is why many past studies have been corrected. That is a proof we are in a history of success. Because the second messenger corrects the mistakes of the first. It impacts how we read and the interpretation and many times it will shift/turn our world view upside down.

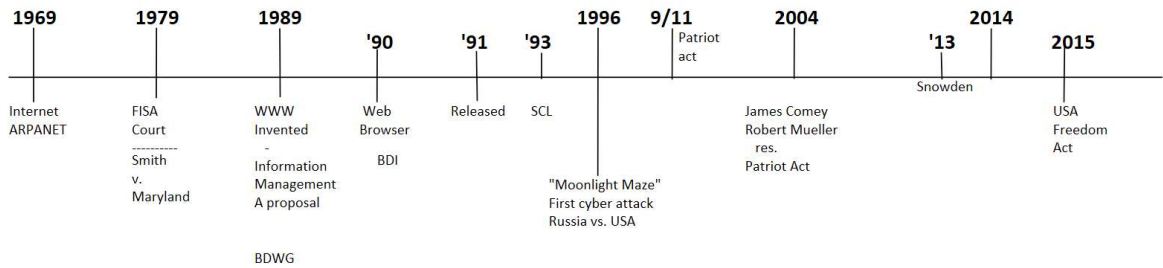

This study is in two parts. The first part is to list all the studies that have been corrected to see how we've grown by comparing a childish prophetic understanding with an adult prophetic understanding. The second part is to do an exercise with the 10 commandments. The idea is to measure our level of maturity when we approach them.

Part I – We Know In Part And Prophecy In Part -

Our need and goal are to become more mature. So let us have a look.

Subject	Think prophetically as a child	Think prophetically as an adult
World War III	Hot war	Information war

- Elder Tess is in Arkansas in 2018 to give the M/C message
- She understood WWIII by relating WWII.
- The struggle for People was that they couldn't see war. They expected a hot war.
- As a result, they struggled to accept the new definition of warfare which is that of an information war.
- That understanding was crucial because it has a direct impact on how we had to understand the Battle of Raphia. And when nothing happened on that day, we were mocked by FFA. The M/C significance was doubted.
- Where was the great disaster? Some even expected an Islamic attack.
- This created a great disappointment and even if the split with FFA happened before, Nov. 9, gave excuses to other to leave the movement.
- But what we were meant to do is to stop thinking of war like a child but as adults.
- The information war was entered the scene since 1989. We are now expected to look at war within that lens of prophetic understanding.

Civil wars and Revolutions and counter-revolutions	Hot Revolutions	Revolutions on the Western front within the government Georges Floyd

- Civil war started in 2001.
- People couldn't recognize there were civil war in the USA.
- Why? They have an outdated view of war. They couldn't see the republican party blocking Obama from appointing judges. They couldn't see the work of Steve Bannon, Jeff Session and Steven Miller. They didn't understand the impeachment process.
- What is the principle matter? Methodology and application. Understanding that we are applying these revolutions in a spiritual sense and not literally.
- The MC is there to mature the harvest/Crop with the LR.

Impeachment	President removed from office	A president can be impeached and remain in office

- The Impeachment process was misunderstood by FFA because, they didn't look at history to understand how impeachment process of Andrew Johnson happened. If They had done so, they would have realized that Johnson was impeached by congress but not by the Senate.
- We used the 151-time span from 2019. He was the first president to be impeached for firing his secretary of war Edwin Stanton by Violating the Tenure of Office Act by attempting to replace him while Congress was not in session.
- From Congress, He was accused of high Crime and misdemeanors. They voted 126 in favor against 47.
- From the Senate, He was accused on article II and III. They voted 35 "guilty" and 19

“non-guilty”. As a result, he was acquitted. (36 "guilty" votes necessary for a conviction).

- Trump was accused of abuse of power and obstruction of congress.
- The inquiry reported that Trump withheld military aid^{la} and an invitation to the White House to [Ukrainian president Volodymyr Zelensky](#) in order to [influence Ukraine](#) to announce an investigation into Trump's political opponent [Joe Biden](#) and to promote a [discredited conspiracy theory](#) that Ukraine, not Russia, was behind [interference in the 2016 presidential election](#).
- Congress won the majority of the votes for both accusation from the Democrats.
- The majority of senate voted non-guilty. As a result he was acquitted.
- So, there was enough evidence to realize that the impeachment will not result to a removing of office.
- But FFA denied this fact and accused the movement of promoting errors.

Daniel 12: 1	Micael Stands up in 2019	Micael stands up once. And it is at COP. We cannot apply a literal meaning to a symbolic application

- When FFA split with the movement in September 2019, they kept the idea that Close of probation would happen on November 9, 2020.
- However, they understood Daniel 12:1 as being literal. Which would mean that when Micael stood up in 2019, he did it for only one category of people which were the priests.
- This is an immature and ignorant understanding.
- Fractals are symbolic, not literal. They are a copy of the original, not the original itself.

The Nature of the SL	Literal Sunday Law	Deals with the testing truths for this time “Equality” Church and state

- Since the MC message arrived, we’ve been confronted with issues for our time: Equality, nationalism, sexism, homophobia, racism.
- But it was hard to see. Elder Tess has to bring us to the history of 1850 to realized that the issues they were confronted with was slavery. There was a decree issued, the fugitive slave act. Will they obey it or not?
- The Sabbath was already in place yet that was not the testing issue
- We also have the example of Christ. During his presence on earth, the Sabbath was not the testing issue. It was to understand the nature of the kingdom and the king.

- The line of Christ is the one which reflects the most ours and it gives up an import point, that is that the Sabbath is not an issue in an Omega history.
- See D.A 211.3. It is still truth but not the testing truth for this time.

The time, the place, the occasion, the intensity of feeling that pervaded the assembly, all combined to make the words of Jesus before the Sanhedrin the more impressive. The highest religious authorities of the nation were seeking the life of Him who declared Himself the restorer of Israel. The Lord of the Sabbath was arraigned before an earthly tribunal to answer the charge of breaking the Sabbath law. When He so fearlessly declared His mission, His judges looked upon Him with astonishment and rage; but His words were unanswerable. They could not condemn Him. He denied the right of the priests and rabbis to question Him, or to interfere with His work. They were invested with no such authority. Their claims were based upon their own pride and arrogance. He refused to plead guilty of their charges, or to be catechized by them. { DA 211.3} Instead of apologizing for the act of which they complained, or explaining His purpose in doing it, Jesus turned upon the rulers, and the accused became the accuser. He rebuked them for the hardness of their hearts, and their ignorance of the Scriptures. He declared that they had rejected the word of God, inasmuch as they had rejected Him whom God had sent. "Ye search the Scriptures, because ye think that in them ye have eternal life; and these are they which bear witness of Me." John 5:39, R. V. { DA 211.4}

SL in 2014	The Sunday Law must come from the president: Obama and Obama Care	Mitch McConnell blocks Obama The executive has less power than the Legislative and executive branch all together. Cambridge Analytica

- 2014: The childish view we had was that the Sunday Law must come from the president and a wicked president
- People looked at Obama and Obamacare. They saw how he was trying to force people to get healthcare. And his other "wicked" actions made him the perfect candidate. He doesn't use the terms "In God We Trust" but out of many one. He allowed gay marriage. All was against him.
- But a prophetic adult looks at 2014 and sees how minimal power the executive branch receives against the executive and the Legislative. You have the leader of the Senate who perfectly understood this and blocked Obama from appointing judges.
- What it proves is that we should not look at issues (most of) in a moral sense. Otherwise it triggers our reasonings and understandings of the issues.
- We must add the work of Cambridge Analytica of using algorithm to manipulate people views.
- Sessions, Bannon, Miller are in the background and are working to make sure that nor another democrat president would be elected.

The last president	Trump is the last president Will pass the SL 45th president	The speaking of a nation: legislative and Judicial branches Work of Mitch McConnell since 2014

- This subject is the last one that has been corrected by the movement.
- In the subject of the last president FFA they saw Trump being very was special.
- We used Daniel 11 and the fact that the last will be far richer to identify the Last president. Donald Trump being far richer than any other presidents. We applied literal upon literal.
- Now we come to realize that Donald trump represents the 1844 presidency. He is the one who helps the South.
- He did something incredibly significant which was to end the US democracy.
- But it is a childish view to say that because he is or was a bad president, he will do bad things and pass the SL. That is not enough. You have to look the legislative, judiciary branch.
- We have to look at the work of Mitch McConnell. As the leader of the Senate, he was able to block Obama from appointing judges. He was able to have Amy Coney Barrett nominated at the supreme court giving the balance of power to conservatives. Trump was able to appoint judges mostly conservatives.

Joe Bien	The last president	Joe Biden is the president for Panium, not the SL.

- In by understanding how fractals work that we can identify that Biden is not the last president
- 1850 : SL and Panium. Biden is the president of Panium not the SL.
- The difficulty comes from the fact that in the line of the Millerites there is only one call for the church.
- An Alpha history only have 2 fractals. In 1798 the 1260 ended. A new reform line, and therefore gathering, began. God always gathers His church first, so they can take the message to the world. So in 1798 the first gathering began, this was a gathering for God's new church : the Protestant churches. In The Present Truth (RH) November 1, 1850 par. 9; E. G. White says that on September 23rd (1850) God told her a second gathering had begun. This second gathering began in 1850.
- 1850 is the Sunday Law- the beginning of the last dispensation before the Close of Probation; there is only one dispensation left to gather a group of people. God isn't going to skip over the world and just gather His church twice, so since the first gathering is definitely for the church, the second gathering is for the world.

- The first coming into the church (gathering) began in 1798- just like the Priests, the Millerites started coming into the church soon after. 1850 was the Millerites' Sunday Law. The second gathering for the world began at the Sunday Law just like the Nethinims' will. Since there is no Levites' fractal in Millerite history, there is no 2021 waymark on the Millerite lines. There are still five waymarks though, there is just a "gap" where 2021 would go.

The Democrats	They are better than the republicans. They will bring significant changes	Joe Biden is centrist. Centrists are compromisers

- The childish view is to say that the democrats are better because they understand the issues for their time better and therefore, they will bring significant changes
- The adult views: if you are centrist, you are it is compromiser. So, if the senate wins the majority, they will compromise.
- The race is not over. The senate majority still have to be determined. The seat of Georgia will make the difference.
- There are 51 seats needed for control. As of today, the results are 48 seats held by the democrats and 50 by the republicans. But Senator Ossoff who is the democrat running for a seat is centrist!! He mostly agreed with everything Trump say. So, it will not help.

Sexism, Racism, Nationalism, Homophobia, equality	Yes, but...	No compromise

- In 2017 Elder Tess is in Arkansas and she relates her experience with sexism, racism, equality. She can already see there are issues.
- At Lambert fellowship there are only men on the pulpit
She didn't stay for the Sabbath because it was like a segregated church. The feeling was the same as a black person going to a segregated church.
She was walking among a sea of blind ppl especially among the young ppl who came to FFA
- From 2018 until now: she is still walking among a sea blind ppl, especially youth because the older people and middle age people have not figure it out yet. So being their models, the young people feel safe. They are building a nationalistic, republican, conservative, racist mindset!!
- Just accepting trousers, equality and homophobia is not enough.
- We have childish understanding of equality. ex: make-up: mindset is the pb. It is sexism.; Hollywood, domestic abuse.
- Traits and characteristics that society value of a woman: research: 35%
 - Woman beauty standard:
 - View: second wave of feminism!!! Deals with the beauty expectations on women placed by society: Hollywood style. But 2nd wave wants to be away from jewellery and makeup, however, many women were afraid to be rejected by society.
 - There is sexism but it is imbedded in nationalism because it is culture that pushes the beauty standards on society. But we do not embrace them nor compromise with them.
 - USA – Trump / Brazil – Bolsonaro: we can compare and contrast.
 - Top 2 country for plastic surgery: USA and Brazil. This is a sexism problem and nationalism problem.
 -
 - Germany camp-meeting: rumors, Elder Tess demanded to be called “elder Tess”. But she never. But people made a sexist remark and said: elder Parminder and sister Tess!!!
 - This is a Far-right technique: far right Gossip: misinformation and disinformation until it turns into a conspiracy theory which is designed to destroy people.
 - And the young people are the one who are destroying movement with their far-right mindset in the way they treat people in leadership especially women, work under them with respect, whether they can see abuse in the movement and their response and it is reflected in equality ++ with Hollywood standards.
- Apis Bull and the issue of headship.

Conspiracy Theories	Vaccines Covid-19 Deep state 9/11 Illuminati The pope 5G	2 streams of information

- This subject of 2 streams of information has opened our eyes on where to look to understand prophetic events.
- It allowed us to realize how blind we were and how our worldviews were similar to the apostate Protestantism.
- And the issues are still on today. Not all are in line with the 2 streams and ultimately are not 100% convicted that vaccines are necessary, or Corona is viral.
- All that mindset was taken from conservative Adventism, or Walter Veith although not the only one. You can look at Henriques or others. They have the same mindset.
- The movement comes from far and without removing these wrong ideas, we cannot succeed, or we should say, the movement will succeed without us.
- Goal of vaccines: Building memory cells (School of the Prophet in France 2019, Q and A in Germany 2019)
- Corona Virus: Elder Tess in Portugal made the parallel between WWI and Spanish Flu and Raphia and Covid-19. (3 hour-long presentation).
- Vaccines and Corona are prophetic subjects. They are not hoax. Respect governmental measures. Careful to not spread misinformation.

Conservative Mindset	Conservative mindset is good	Conservative mindset is the most dangerous

- Conservative mindset: childish view is to say that conservatives are the good ones because they uphold the Bible.
- The Adults view would say the conservatives are the most dangerous. They have a literal interpretation of the Bible and their religion builds a wall of separation between themselves and the world.
- They have a mindset of Idolatry: their nature of the kingdom is nationalistic, chosen people, warrior kings. But Christ kingdom is different.
- Because, they have a literal and outdated understanding of the Bible.
- They have this false view of God just like the Israelites. They got theirs from the Egyptians, we've got ours from apostate Protestantism (GC 569.1). Your god can be

nationalist, homophobic, far-right. This is idolatry, you have fears and hate towards others.

- Thus they didn't understand the nature of king. How deep seated the problems they needed to overcome. But it requires self-sacrifice.

*"I am come in My Father's name, and ye receive Me not: if another shall come in his own name, him ye will receive." Jesus came by the authority of God, bearing His image, fulfilling His word, and seeking His glory; yet He was not accepted by the leaders in Israel; but when others should come, assuming the character of Christ, but actuated by their own will and seeking their own glory, they would be received. And why? Because he who is seeking his own glory appeals to the desire for self-exaltation in others. To such appeals the Jews could respond. They would receive the false teacher because he flattered their pride by sanctioning their cherished opinions and traditions. But the teaching of Christ did not coincide with their ideas. **It was spiritual, and demanded the sacrifice of self; therefore, they would not receive it. They were not acquainted with God, and to them His voice through Christ was the voice of a stranger.** {DA 212.4}*

- On top of that idolatry, they had to issue methodology. The way Christ taught was in parables. They criticized him for not using the Law of Moses.
- he has been accused to breaking the law. Because they don't understand how the law works. Because they elevated their own laws and put interpretation on them. So, Christ comes and say, don't think I come to destroy it. Because this is what he's been accused of breaking the law of Moses. But Jesus says, I come to fulfill them. But because they don't understand the spirit he is of and what the principles of the law are, they think he is breaking it. This is how twisted their minds are.
- If Christ came today, in a form of a message, the conservatives Adventists and even some in the movement would not recognize him.
- And it is the same in our time. People are thinking we are destroying the law because we are trying to put principles that we are learning into practice. People are seeing that for example women wear pants, and thus they categorize us as radicals or heretical, destroying law. But it is actually keeping law because they totally misunderstood the principal of the law.
- The message of equality has opened our eyes that some of the principles we hold on to are conservatives, they are not God's principles, they are not the way would want us to operate. Our eyes have been opened on focusing on the true principles behind the law of God which is love your neighbour. We recognized that we have not love our neighbour the way we should have. And that is connected to the test we are facing in our time. In the Millerites time it was slavery, and we see it was a violation of God's principle and his law. But when we look closely, it was hard to see which of the 10 commandments you were breaking.

Subject	Think prophetically as a child	Think prophetically as an adult
True Education	Homeschooling Keep them separate	Parable teachings Teach equality, empathy

- Education: Homeschooling: it challenges the whole world's view of education. Because the principles we instill in them is going to affect them later on.
- It is not only a question of who the teacher is: the parent or a government/state teacher.
- It is to realize what traits of character you instill to your child.
- Train up a child the way it should go, and it should not depart from it.
- Do we instill nationalistic views, homophobic views, sexist and headship views or do we install equality principles, empathy? Do we raise them anti-racist or racist?
- And this issue of true education is not limited to the child. The movement is also learning the lessons of true education.
- And adults are the first models of the children and Youth.
- But really, if we do not teach empathy, the child doesn't pass the test. Children are born with empathy, but it was crushed out of them. We usually push doctrines, rules and regulation and then most of the time the children turn away from the religion.

According to [Martin Hoffman](#) everyone is born with the capability of feeling empathy.^[14]
<https://en.wikipedia.org/wiki/Empathy>

- To avoid that, we have now to re-educate them by setting up principles of love instead of hate.
- And it is a complex issue because even the world system of education is leading toward elevation and competition and good grades which removes the love aspect as well.
- And then it continues in the work environment where some will want to compete and get promoted which means they cannot have empathy for others as they are perusing personal ambitions.
- The phenomena are also viewed in society and in the church where people would ask what job you are doing and according to your response, they will decide to build a relationship with you.
- So here too, we can see love is replaced by personal interest. There is no compassion, no empathy.
- An high qualified person will be more considerate than a poor person.
- The evangelicals will also get involve in politics for their status be kept as Dominionists and they can build their temporal kingdom.
- So true education is broader than just putting kids to school. It is not that straight forward.
- It is how you would reflect the image of God, how you demonstrate love and empathy to others.
- During the questions and answer session with E. Parminder (Marriage and courtship) last week, a wife asked what can she do because her husband do not demonstrate affection but anger and frustrations. And the reason is because those traits of empathy

were crushed in childhood or teenaged period. Not to show feelings and emotions. It brings damages for the rest of someone's life.

9/11	9T11-12; LS 411;	Harbinger Consider the original intent Structure vs face value reading

- A childish view would be to take a quote from spirit of prophecy. See the buildings being destroyed and conclude that is talking about 9/11.
- Moreover, the page numbers correspond to 9/11.
- An adult view would be to consider the original intent.
- Elder Parminder, introduced this study by looking at Number 24: 13-19 and the story of Balaam.

17 I shall see him, but not now: I shall behold him, but not nigh: there shall come a Star out of Jacob, and a Sceptre shall rise out of Israel, and shall smite the corners of Moab, and destroy all the children of Sheth.

NOTES FROM ELDER THABO BELOW :

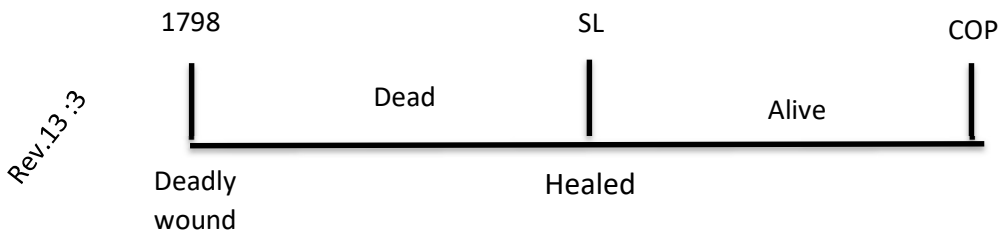

- The prophecy of Balaam pointed to David but partially. Its main fulfilment is in Christ (Rev 22:16). • David defeated and executed the Moabites in 2 Sam 8 and the Ammonites in 1 Chronicles 19-20.
- ***The prophecy of Balaam had declared, “There shall come a Star out of Jacob, and a Scepter shall rise out of Israel.” Numbers of 3 5 24:17. Could this strange star have been sent as a harbinger of the Promised One? The magi had welcomed the light of heaven-sent truth; now it was shed upon them in brighter rays. Through dreams they were instructed to go in search of the newborn Prince. DA 60.1***
- Christ is the star of (Num 24:17). But the Magi saw an actual “star” which pointed them to the star that was Christ. The star they saw was a harbinger. *Harbinger (Noah Webster’s 1828 Dictionary) 2. A forerunner; a precursor; that which precedes and gives notice of the expected arrival of something else.*
- A harbinger points to something else. It looks like what it is pointing to but it is not the same thing. • The events of 9/11 look like the things described in LS and 9T but they are not what is being described in these passages. • A harbinger is not a type. A type as we have applied is something from one line that represents something else in another line. • Harbingers exist horizontally on the same line with the event they point to.
- • 9/11 can be established structurally by using Millerite history as a model. • August 11th 1840 marked the early rain in Millerite history. It parallels 9/11 which is the Early rain in the final reformatory movement. • 1840 and 9/11 parallel one another

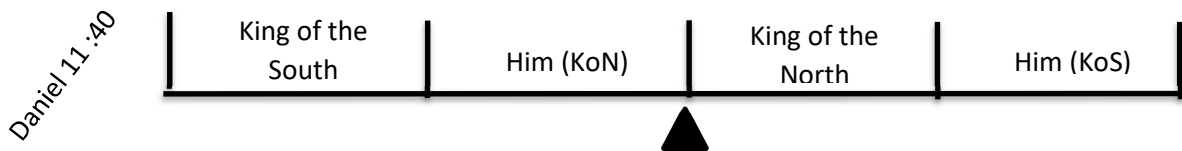

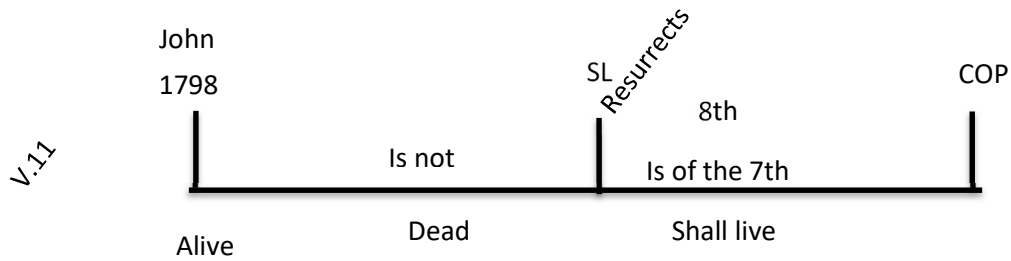

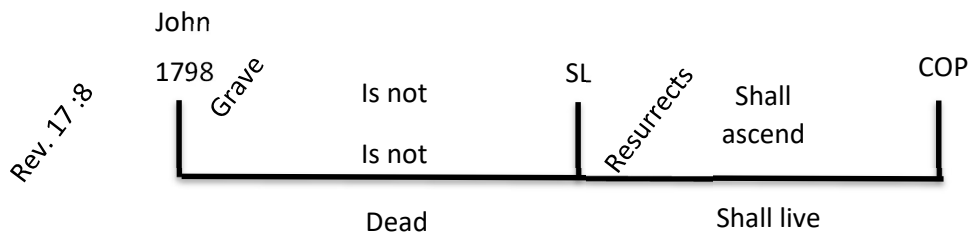

and they look similar - Islam restrained, message empowered, movement begins to be raised etc.

- 9/11 is necessary from a structural perspective. • It is necessary in order to see the two part structure in the line of the final reformatory movement. • The two part structure which shows that there is a testing period for the church which precedes the testing period for the world. • Adventism’s problem is that it only sees a testing period for the world and is blind to the fact that they are tested first, let alone when this testing period begins.

Daniel 11:40	Part A – 1798 Part B - 1989	Part B as 1989 is not the original intent Repetition of History

- Although not the original intent, the movement sees in it as a repetition of history and therefore associates this part with 1989 – the time of the end for the last generation – when Pope John Paul II and the USA of Reagan are in alliance to overthrow communism or the USSR. The event we mark is the fall of the Berlin wall.
- Daniel 11:40 is repeated and enlarged of Revelation 13:3
- 13:3 And I saw one of his heads as it were wounded to death; and his deadly wound was healed: and all the world wondered after the beast.
- When we look closely at this verse, we see a death and a resurrection. First the papacy receives a deadly wound and dies. Then its wound is healed and the world wonders after it. So this verse shows us that there are two parts or two steps. Part A - a wound and a death; and Part B - a healing and a resurrection.
- Same in Revelation 17:8 and 17: 11
- We can compare Daniel 11:40 with Revelation 13:3 and Revelation 17:8, 11. A pattern can be seen in those verses which comprises of a death and a resurrection - part A and part B. By juxtaposing these verses, we were able to find missing information. Revelation teaches the death and the resurrection of the king of north. Daniel identifies the person who inflicts the deadly wound on the king of the north and how he retaliates as he resurrects.
